The Missouri Military Preparedness and Enhancement Commission (MMPEC) has actively solicited comments from Missouri military personnel and their families. The majority of the comments received by the Board pertained to education. The Commission determined that it would be helpful to invite representatives from the school districts that surround Fort Leonard Wood and Whiteman Air Force Base to participate on a task force to review the issues. The Task Force was asked to determine if there are issues related to access to education for students in military families stationed in Missouri and if so find ways to address those issues.

2006 Action Items Completed
